**DR. P. H. CARDWELL**  
HAS THIS DAY EFFECTED AN ARRANGEMENT by which he will be able in the future to supply all persons who may desire, from a single to a full set of teeth, on the **VULCANIZED RUBBER BASE.**

Being the latest improvement in our profession, and having been sufficiently tested to warrant its utility, we take pleasure in recommending it as being far preferable in many respects to any other base heretofore used. It can be used in many instances where all other materials fail. No one need, therefore, despair. Call on me, give me your work and I will demonstrate these facts.

Remember that a full set of teeth on this method cost only half what they would on gold, and yet preferable in all respects.  
Respectfully,  
**P. H. CARDWELL,**

**PETITION TO SELL LAND TO PAY DEBTS.**  
GEORGE H. BROWN, Administrator of the Estate of Charles Henry Brown, deceased, vs. The Heirs of Charles Henry Brown, deceased. In this case it appears from the allegations in the petition that Charles Henry Brown, formerly Catherine Berry is a non-resident of the State of Tennessee, and is therefore, under the provisions of the Act in that behalf passed, entitled to sell the land of the said deceased for the payment of his debts. The petition prays that the Court will order that the said land be sold for the payment of the said debts, and that the proceeds of the sale be applied to the payment of the said debts, and that the balance be paid to the heirs of the said deceased.

**FOUTZ'S**  
**Horse and Cattle Powders.**  
This preparation, long and favorably known, will thoroughly rid the system of all humors, and low-spirited horses, by strengthening and clearing the stomach and intestines. It is a pure preventive for all diseases incident to the above animals, such as LUNG FEVER, GLANDERS, YELLOW WATER, HEMORRHOIDS, COUGHS, DISTENTIONS, LOSS OF APPETITE AND VITAL ENERGY, &c. It also improves the wind, increases the appetite, gives a healthy and glossy skin, and renders the animal skilful in the saddle and obedient to the driver.

To keepers of Cows this preparation is invaluable. It increases the quantity and improves the quality of the milk. It has been proven by actual experiment to increase the quantity of milk and cream twenty per cent, and make the butter firm and sweet. In treating cattle, it gives them an appetite, cleanses their hides, and makes them thrive.

In all diseases of Swine, such as Coughs, Ulcers in the Lungs, Liver, &c., this article acts as a specific. By putting from one-half a paper to a paper in a barrel of swill the above diseases will be eradicated or entirely prevented. If given in time, a certain preventive and cure for the Hog Cholera.

AS AGENTS of the ELMA INSURANCE COMPANY, of Hartford, the ELMA Insurance Company of the Country, allow us to call your attention to the superior security and inducements offered for patronage, by presenting such facts of good work as

\$15,000,000 Losses paid in 46 years.  
A Cash Capital of \$2,500,000 (absolute and unimpaired) with a surplus of \$1,400,439.47.  
A PERFECTLY CASH CAPITAL, with the prestige of 46 years' experience and successful record.

A CASH BASIS OF TRANSACTIONS, free from the complications incident to the note system, or the abuses, and a straight forward business management, destitute of trap-door and false promises.

QUALITY, in matters of insurance, is frequently lost sight of, in which respect, there is like other articles of trade, a great variety. Indeed, the genuine article is often overlooked, and by reason of a popularly seeking the cheapest rate, the best kind of insurance is frequently secured, which is not only a waste of money, but a source of trouble and dissatisfaction in the end. From many years experience, we can only recommend the kind that we have secured for our own property, and which we can recommend to you, to the quality, as the permanent consideration of insurance—reverse the rule making the rate of premium the chief essential, for too frequently the Contract Rate is only an index to the Premium.

objections to insurance are frequent with owners of the most valuable property, and in such cases, from a conclusion that there is only trifling danger, being entirely to forget the rates of premium with the Company are graduated according to the burning hazard of each kind of property. The safer the risk, the lower the rate, and let the fact be considered, that in six per cent the Elma Insurance Company adjusted and settled losses for over one hundred years, and has a record of 46 years.

The dangers from storms and pipes, hot air furnaces, defective chimneys, matches, burning fluids, lights, carelessness, or other causes, are not trifling as many suppose.

\$100,000 is brought overboard free loss in the United States, the importance of insurance is an imperative necessity for every owner of property.

Dwellings, Outbuildings and Contents are insured in the most favorable manner, for a Term of Five Years or less.

All business attended to with dispatch and fidelity. By strict attention to a legitimate insurance business, this Company is able to offer indemnity for the past and security for the future. Applications for insurance promptly attended to.
